4. FIRST AID

4.1 First Aid:

**EYES:** Flush eyes thoroughly with copious amounts of water for at least 20 minutes, holding eyelids open to ensure complete flushing. Seek immediate medical attention.

**SKIN:** Remove contaminated clothing and wash affected areas with soap and water. If irritation persists, seek prompt medical attention. Launder clothing before reuse.

**INGESTION:** Do not induce vomiting. Call a physician or poison control center for assistance & instructions. Seek immediate medical attention. If vomiting occurs spontaneously, keep victim’s head lowered (forward) to reduce the risk of aspiration.

**INHALATION:** Remove victim to fresh air at once. If breathing is difficult, provide supplemental oxygen. If breathing has stopped, provide artificial respiration. Seek immediate medical attention. Provide treatment, keeping victim warm & quiet.

4.2 Medical Conditions Aggravated by Exposure:

Persons with pre-existing skin disorders or eye problems or impaired kidney function may be more susceptible to the effects of the substance.

5. FIRE & EXPLOSION HAZARDS

5.1 Flashpoint & Method: 50 °C (122 °F) TCC

5.2 Autoignition Temperature: NA

5.3 Flammability Limits: Lower Explosive Limit (LEL): Not Determined Upper Explosive Limit (UEL): Not Determined

5.4 Fire & Explosion Hazards: Flammable.

5.5 Extinguishing Methods: CO₂, dry chemical or other appropriate fire extinguishing media, alcohol foam.

5.6 Firefighting Procedures: Flammable. Keep containers cool until well after the fire is out. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. Firefighters should wear full-face, self-contained breathing apparatus (MSHA/NIOSH approved or the equivalent) and impervious clothing.

6. SPILLS & LEAKS

6.1 Spills: Secure spill area, remove or minimize all sources of ignition, and maximize ventilation. Stop spill or leak at source if safely possible. Deny entry to all unprotected individuals. Individuals involved in the cleanup must wear appropriate personal protective equipment. Recover free liquid or cover with inert absorbent material and place into appropriate container(s) for disposal. If necessary, dike well ahead of the spill to prevent runoff into drains, sewers or any natural waterway or drinking supply.

7. STORAGE & HANDLING

7.1 Work & Hygiene Practices: Use normal hygiene practices. Avoid breathing vapors. Avoid direct skin contact. Wash hands thoroughly after using this product and before eating, drinking, or smoking. Good personal hygiene practices, such as washing any skin contact areas and removing contaminated clothing, are recommended.

7.2 Storage & Handling: Keep away from spark, flame and other sources of ignition. Follow all label instructions. Keep container closed when not in use.

7.3 Special Precautions: Keep this and all chemical out of reach of children.

8. EXPOSURE CONTROL & PERSONAL PROTECTION

8.1 Ventilation & Engineering Controls: Explosion-proof local exhaust to maintain exposure limits below those listed in Section 2.
