

# SPARE TIRE FITTING INFORMATION

## SPARERIDE™

Make that spare tire work for a living—the SpareRide easily attaches to your rear-mounted spare and turns it into a bike rack. Durable, stable and secure. SuperCush™ cradles securely hold and protect your bikes, a bottle opener opens bottles, and integrated SKS locks bum out bike thieves.

- SuperCush ZipStrip™ cradles secure the bikes and make loading and unloading a breeze
- ZipStrips™ secure bikes to the rack and are fully removable
- Anti-sway cradle design minimizes bike-to-bike contact
- Fits nearly any size spare—including oversized truck tires (P195 to P318)
- SKS locking package secures bikes to rack, and rack to vehicle, to help prevent theft
- TireTread™ pads increase wheel clearance, while adding stability and protection
- Steel construction is strong and durable
- Universal mounting plate with extension fits most lug patterns
- Tool-free locking knob for quick installation
- Yakima signature bottle opener lets you enjoy a post-ride cold one
- 2-bike capacity

Mounting plate rotates to accommodate different vehicles.

Use the numbers on the mounting plate to guide you.

5 = five-hole wheel, 6 = six-hole wheel.

## WILL SPARERIDE™ FIT MY VEHICLE?

- SpareRide fits most factory spare tires and mounts.
- Fits after-market tires up to 12.5" wide.
- Works with all common 5- and 6-bolt wheels.
- May not work with spare-tire-mounted rear-view cameras.
